CONSULTANT ENT- HEAD & NECK SURGEON
Ex. Full Time Head & Neck Cancer Surgeon
Shree N.P Cancer Hospital- Rajkot

Dr. Rachana Parikh

Dr. Rachana Parikh is an ENT and HEAD and NECK cancer surgeon. She is practising since 12 years in Sabarmati and Bodakdev/Vastrapur, Ahmedabad.

After doing M.S. (ENT) and DLO from V.S. General Hospital and Smt. S.C.L. General Hospital (Shardaben Hospital), Ahmedabad, she went for further training in Head and Neck cancer surgery at Rajkot cancer hospital. (It is 2nd largest cancer institute in Gujarat)

She took advanced training in laryngeal cancer surgeries(voice conservation) and LASER surgeries at TATA mamorial hospital, Mumbai and MARIAN hospital, Stutgart, Germany.

She is doing LASER surgeries with CO₂ and DIODE laser since 15 years.

Apart from this she pursued postgraduate diploma in hospital and healthcare management and medico legal services from Symbiosis international university, Pune to improve the quality in patient care.

Aim – our aim is to provide personal and attentive care to each patient with customised approach. Our goal is not only to treat you but to educate you about the illness. We will teach you about your condition, what can be done to treat it and when possible what can be done to prevent any further problems. We treat our patient by using the most current research and advanced technology along with humanitarian approach.

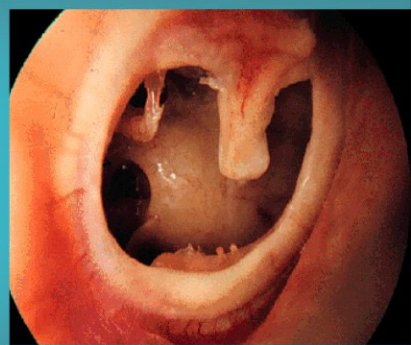

OTOLOGY – EAR DISEASES.

We treat all ear diseases like ear infections, polyp, otosclerosis (fixed bone in ear) with advanced minimal invasive technique with latest microscope.

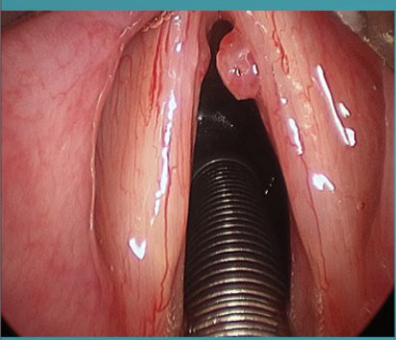

We also treat vertigo and balance disorders.

We have a facility for Audiometry and Hearing aids

TREATMENT OF NASAL DISEASES WITH ENDOSCOPIC SURGERY (FESS)

Nasal polyp, deviated septum, allergic rhinitis, sinus diseases like sinusitis, polyp are treated with Carl storz endoscope and camera.

DISEASES OF LARYNX

Diseases of larynx like vocal nodules, laryngeal polyp, cancer larynx – 1st stage can be treated with latest LASER machine.

DISEASES OF CHILDREN

Diseases of children like tonsillitis, adenoids, ear problems like glue ear, can be treated with medicines and surgery.

We do removal of foreign bodies like coin from oesophagus or bronchus with endoscope.

LASER SURGERY

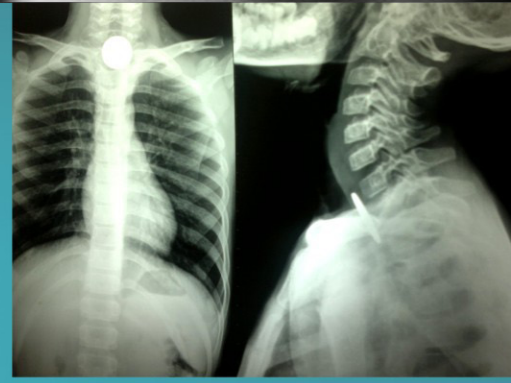

We treat non healing ulcers in oral cavity, leucoplakia, early oral cavity cancer, early laryngeal cancer, submucous fibrosis (reduced mouth opening due to tobacco), DCR with LASER. It is also useful to remove skin warts. We also do surgery for snoring with LASER.

HEAD AND NECK CANCER SURGERY

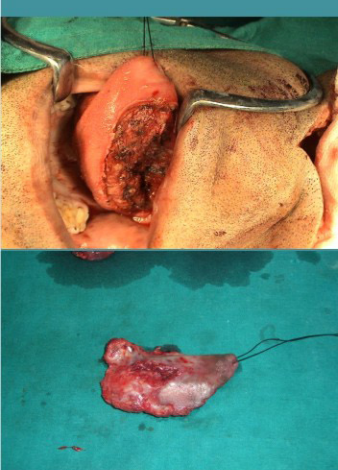

We have a specialized set up for HEAD and NECK cancer care. We have all facilities for diagnosis and operative treatment with plastic surgery of all head and neck cancers like cancer of jaw, cheek, tongue, larynx, pharynx and oesophagus.

HEAD AND NECK BENIGN SURGERY

Thyroid surgery, surgery for salivary gland, stones in salivary gland, any cyst in neck can also be treated by us.
